Attn: Mr. Eric Crespin

Dear Eric,

We've been working with your software for almost 2 years now and all that was promised has been delivered. Some of the features have helped us increase our business by making it easier to relay the information and documentation to our customers in a fast manner and clear format.

It has been a pleasure working alongside you and your entire team and hope to continue this business relationship for a long time.

Kindest regards,

**Diane de Bunnetat
